Van,

I reviewed the captures for MS0110 & MS0046. Both locations will be caught up by Capture 24. With Capture 22 being estimated, the system is still playing catch up, recovering from the estimated captures. I've attached the invoices for your review for Capture 23.

I have a maintenance request in for your login access- I'll ping you once I have further information. I'm confident that we can get all of your locations under one login.

Thanks again,

Morgan J. Graham

Hello Van,

I hope you and the team had a wonderful Christmas holiday.

Please forgive our delay. I've attached our calculations above. We did omit the NSF re-collection for both locations last week, so that we could assist with resolution for the estimated capture.

Let us know if you have any questions.

Kindest Regards,

Morgan J. Graham
